

If your sole's a little worn  
And your toes are poking through  
And your tongue's a little torn  
And your laces ripped in two

You gotta get yourself

(Chorus)

Some folks will go for sneakers  
Some folks will go for boots  
Some folks will go for loafers  
But it's up to you to choose

When you get yourself  
What is it?

(Chorus) Repeat

Performed by Amblin' Andy

### **Rainy Day Fun**

When it's cloudy and grey  
And the rain's pouring down  
Don't sit there and pout  
With a big, mopey frown  
You can have a great adventure  
It's easier than pie  
You can swing across the jungle  
Or sit on a cloud up in the sky

Take a trip to the moon  
Or the ocean below  
And ride a balloon  
Or slide through the snow  
Fight monsters in the forest  
Or climb the highest tree  
Ride a magic carpet  
Across a great, big blue sea

Chorus:

An imaginary world is  
Out there just for you  
For some rainy day fun  
Do you know what you would do?

Have dinner on Mars  
Or hunt for secret treasure  
Find the fabled money tree  
And live a life of pleasure  
Travel back in time  
And become a mighty king  
Defeat the evil wizard  
With your secret magic ring

(Chorus)

You can have a great adventure  
It's easier than pie  
You can swing across the jungle  
Or sit on a cloud up in the sky  
(Repeat last line)  
(BG: Rainy day fun)

Performed by Corky

### **Funny Face**

Sometimes you're sad  
So what do you do?  
I've got a method  
That's tried and true  
It's not that hard  
In fact, it's a breeze  
It'll bring you a smile  
Just as quick as you please

Chorus:

Just stick out your tongue  
Bug out your eyes  
Before you know it  
You'll realize  
That things aren't as bad

As you may have thought  
Cause one little funny face  
Can sure change a lot!

When you're feeling down  
And your skies are grey  
And nothing goin' right  
Throughout your day  
Please don't regret  
Or even think twice  
You can turn things around  
With my advice

(Chorus)

When your hopes are shattered  
And you're feeling hollow  
Just step off the path  
And find a new one to follow  
Oh Yeah!

So now you know  
About your funny face  
Don't keep it secret  
You know it's not a disgrace  
You can share it with a friend  
And bring out a smile  
As you toss out the blues  
In one big pile

(Chorus) Repeat last line

Performed by Amblin' Andy

### **Camp Slogopogo**

Camp Slogopogo  
A place where we go  
A place where we go  
Where we'll have fun

Tell mom and dad  
Not to be sad  
It's not so bad  
Away from home...

We'll sleep outside  
Take a rafting ride  
So won't you come and sing along?

Chorus:

Camp Slogopogo  
A place where we go  
A place where we know  
That we'll have fun  
Camp Slogopogo  
A place where we go  
A place where we go  
Where we'll have fun

Let's sing out loud  
Show that we're proud  
To be a part of the campfire light

Our seats are old logs  
We roast hotdogs  
Can you hear the bull frogs  
That croak in the night?

(Chorus)

When you go back  
Be sure to pack  
Your duffle sack  
And don't make a fuss

And when you're done  
Please walk, don't run  
Board one by one  
Back on the bus

Chorus (Repeat)

Performed by Jammin' Jimmy

## **A Pirate's Life For Me**

Chorus:

A pirate's life for me  
Sailin' 'cross the sea  
A pirate's life for me  
Adventure and fun for free

No vegetables to bother me  
No brussel sprouts, or broccoli  
Just bubblegum and jelly beans  
A pirate's life for me...

(Chorus)

No worries if it's time for bed  
No lousy chores or work to dread  
There's no place that I fear to tread!  
A pirate's life for me...

(Chorus)

If you want to join, then come along  
Just bring your smile and sing this song  
How in the world can you go wrong?  
A pirate's life for me...

Everybody sing along  
How in the world can you go wrong?

A pirates life for me... oh yeah  
A pirates life for me... uh huh  
A pirates life for meeeee!!!

Performed by Bumbly

## **The Cookie Dance**

Chorus:

If a cookie falls from heaven  
By some quirk of circumstance  
Hold it high up in the air  
And do a little dance

Chocolate, skip to the right  
Oatmeal, jump up and down  
Shortbread, swivel and swirl  
Peanut butter, spin all around

(Chorus)

Gingerbread, hop to the left  
Double cream, jitter and jump  
Marshmallow, frolic and prance  
Sugar, just boogie and bump

(Chorus)

Snicker doodle, tango and twist  
Coconut, rhumba and rock  
Caramel, cavort like a fool  
Butterball, just hoof it and hop

(Chorus Twice) Repeat last line

Performed by Amblin' Andy

### **Where is My Hat?**

I left it on the stand last night  
But someone took it...

They had no right  
Now I need to know...

Where did it go?

Chorus 1:

Where is my hat?  
It was something special, meant for me  
Where is my hat?  
It's not here, where could it be?  
Who is the criminal?  
What was his motive?  
To be so despicable!  
Oh, where? Oh, where did it go?

How could anybody be so mean?  
They came and took it without being seen

Now with no other hat to spare  
My head is plainly cold and bare

(Chorus 1)

Chorus 2:

Where is my hat?  
It was something special, just for me  
Where is my hat?  
It's not here, where could it be?  
Who is the criminal?  
What was his motive?  
To be so despicable!  
Oh, where oh where did it go?  
Oh, where oh where is my hat?

Performed by Spinny

### **The Cowboy Song**

Last night I dreamed  
I was a cowboy  
Livin' in the wild, wild west  
Today I woke to find my mother  
Tellin' me to clean this mess

It's hard to be a cowboy  
When it's time to clean your room  
It's hard to be a cowboy  
With just a dustpan and a broom

After school I wanna ride the range  
Just me and my cowboy friends  
But, dad says come home early  
Cause there's homework to attend

It's hard to be a cowboy  
When it's homework and no friends  
It's hard to be a cowboy  
When there's no time to pretend

Homework's done  
A movie's on 'bout livin' the cowboy way

But, mom says it's getting late  
You can watch it another day

It's hard to be a cowboy  
When you're told to pack it in  
It's hard to be a cowboy  
I guess I'll take it on the chin

It's getting dark  
It's time for bed  
It's time to dream again  
And in my dreams I'm a cowboy  
I hope this dream will never end...

Performed by Corky

### **A Friend Like You**

We're all treasure hunters  
Looking for a pot of gold  
Keep following the rainbow's end  
And you'll find it we are told  
You can be like all the others  
And follow the rainbow's end  
But I took a different path  
And in turn, I found a friend

Chorus:

A friend who's special, someone who cares  
A friend who's helpful, someone who shares  
A friend who knows me, who lends a hand  
A friend who loves me, who understands

There are other paths to follow  
Other riches to pursue  
You can take the same old path  
Or you can look for something new  
Some things can not be purchased  
Their price cannot be measured  
But they're worth the world to us  
Because they are so treasured

(Chorus)

Just imagine what the world could be  
If we all chose this same direction  
And imagine what the world could be  
If this was our shared intention  
We'd forget about the petty cares  
Everyone could start anew  
We could focus on the things that count  
If we had a friend like you

(Chorus)

A friend like you

Performed by Fuzzette

### **Beach Party Afternoon**

Beach party afternoon  
Dancing in the sun  
Never felt so good

Get a nice blanket to lay down on the sand

Beach party afternoon...

Grab an umbrella to stay cool as you tan

Beach party afternoon...

Chorus:

Oh, beach party afternoon  
Dancing in the sun  
Never felt so good  
Beach party afternoon  
Dancing in the sun  
Never felt so good

Bring a ball to toss around with a friend

Beach party afternoon...

Drink cool drinks with little straws that bend

Beach party, afternoon...

Build a sand castle reaching up to the sky

Beach party, afternoon...

With a nice little breeze your know your kite's gonna fly

(Chorus)

Bridge:

And when the sun begins to set

There's no need to shed a tear

It's a pretty certain bet

We'll be back next year

Chorus (Repeat, Fade)

Performed by The Beach Bugs

### **Take a Little Nap**

When things get really bad

And you don't know what to do

When life just makes you mad

And you want to scream "I'm through!"

Chorus:

If the world is on your back

Don't give up the day

Just take a little nap

And you'll find a better way

When you're puzzled by a question

'bout which path to choose

Just have a thinking session

And the truth will come to you

(Chorus)

When everything goes "crash"

And nothing will go right

There's no need to get angry

No need to start a fight

(Chorus)

Dream about the answers  
That hide when you're awake  
Your dream will be the answer  
To the choice you need to make

Performed by Amblin' Andy
